**AFRICAN SUNDAY**

Don't miss tonight's service, as our mission team talks about the recent medical mission trip to Ghana, Africa. Because of your prayer, support, and giving, you provided medical care to over 1,300 people who had no access to a doctor, and over 800 of those people prayed to receive Christ as their Savior. You also planted a church in this previously unreached region.

During the morning services, please stop by the tables in the front foyer. We have several items from Ghana on display. Also in the morning service, during children's time, Joyce Tilley will share the witnessing tool we used to share the gospel. It's called the evange-cube and it was a dynamic visual tool that quickly captivated the hearts of the African people.

To help you mentally visualize the mission trip: After a twelve hour flight, we took a six-hour bus ride to the village of Aiyinasi. We met at a school, but we had to walk up a hill to the school because our bus could not travel down the weather-worn trail. The people lined up at a registration table manned by native pastors. Unfortunately, there were more people in the line than there were hours in the day, and at the end of the trip, the line was just as long. From there, the people walked across a sandy courtyard to the screening area where they had their vital signs taken. The next stop was over to the school. In one room, the people visited one of the two doctors. In the next room, they visited with evangelists who shared the evange-cube with them. Their last stop in the school was the pharmacy to pick up their medicines.

The purpose of the trip was to provide medical care, the Good News of Jesus Christ, and to help plant a new church. Since we were there on a Sunday, we got to witness an authentic African Baptist worship service. It was quite lively. On that first Sunday, they had more than 100 people present. During our visit, we learned that it would take only \$5,000 to buy the property and build a church. We are glad to report that we had enough funds to make this a reality.

As you will see from the video and pictures tonight, the people were friendly and grateful. While the average family makes less than \$400 a year, many of them put on their best clothes for our arrival. Dr. Ralph Izard, the director of Baptist Medical Missions International, told us that this was the best trip (and group of people) that he has had the privilege of working with on a medical mission trip.

So come tonight and hear about God's amazing work in Ghana. It will thrill your soul.
